

## **Bug List**

- |                    |  |
|--------------------|--|
| <b>Connect 4</b>   | After a player wins, the game allows you to keep clicking on the board, which adds the winner's pieces to the board. Shouldn't allow this.           |
| <b>Tic Tac Toe</b> | After a player wins, the alert pops up before the piece is added to the board.   |
| <b>Memory</b>      | When a new game is initiated using the new game button, if you flip the first card too soon, the first card flip click doesn't flip the correct card |
| <b>Chess</b>       | When showing move options for a king in check, the game will sometimes show spaces that the player can't actually move into as options.              |
| <b>2048</b>        | Screen moves with game when up or down keys are pressed  |
